Maui Humane Society

To protect and save the lives of Maui's animals; accepting all in need, educating the community, and inspiring respect and compassion towards all animals.

The Maui Humane Society is Maui County's only open admission shelter. They handle all animal management, are the only organization offering humane education programs, and have the largest spay-neuter assistance program in the county.

As an independent non-profit organization, the Maui Humane Society seeks private donations and grant funding to provide the monies necessary to cover the programs and services our community needs, which is approximately 60% of their overall operation costs. They are committed to providing exemplary service to our community and encourage the creation and growth of programs, services and partnerships that will enable them to better carry out their mission.

The Maui Humane Society is proud of the services and programs they provide to Maui County and are diligently working to reduce the number of neglected and unwanted animals through education, outreach, and spay-neuter programs, thereby increasing the number of happy forever homes in the community.
